

AI Safety Law-a-Thon 2.0

A weekend working event pairing **practising lawyers** with **AI safety researchers** in small teams, to turn frontier-AI risks into concrete legal arguments — liability theories, contract clauses and courtroom-ready reasoning.

First edition: October 2025, hosted at LISA, London — **140 registrations**, in-person seats **sold out**. This edition is the finale of the AI Liability Course (August–September 2026).

THE EVENT

DATES	Saturday 5 – Sunday 6 September 2026 backup: 12–13 September
HOURS	10:00–18:00 · setup from 09:00
ATTENDANCE	approx. 60–80 participants, plus a small organising team
FORMAT	teams of 3–5 at tables; short plenary presentations; judged submissions
ORGANISER	AI Plans (ai-plans.com), an AI-safety research non-profit

VENUE REQUIREMENTS

- One main space seating the full group at tables, with a screen for presentations
- Reliable wifi and power at tables
- A small serving area — **we arrange our own catering** (a simple lunch and refreshments)
- Exclusive use of the hired space for the duration of the event

HOSTING TERMS WE PROPOSE

As a small mission-driven organisation, we partner with community venues wherever possible. In return we offer: a donation to the venue, full setup and teardown by our team, and public credit as event host before an audience of lawyers, researchers and AI-policy professionals. The first edition's public write-up is available on [LessWrong](#).
